UnitedHealthcare Network Status

In addition to nearly all major health insurance plans, CompuNet Clinical Laboratories continues to be an in-network contracted laboratory with UnitedHealthcare (UHC). Laboratory services provided by CompuNet are in-network for all UHC patients. CompuNet is a regional laboratory and is one of many regional labs around the country that have signed their own network agreements with UHC.

When there are changes to our in-network status with UnitedHealthcare or any other major insurer, we will communicate these changes in a timely manner.

Thank you for choosing CompuNet Clinical Laboratories for your laboratory needs.
